CMTI proudly unveils our newest location... ONLINE!

As you may already know, our newly designed website has been up and running for almost a year now. The site displays easier navigation tabs for finding upcoming courses and the ability to sign up online and pay for your course to reserve your seat in the class. Students have enjoyed being

able to search and plan for their courses in advance and leave their deposit with a few simple steps. We are very excited to announce our Able Seaman and Rules of the Road Online courses. If you are interested in taking one of these courses in order to save money on travel expenses and not having to take off work, visit our website and sign up online. From there we will send you all of the course materials. Then, you will progress through the course at your own pace. You can take 5 days or 5 weeks, its up to you. Once you are prepared, you will contact

our administration office to make arrangements to test onsite at CMTI.

It's as simple as that!

Take a few minutes to look at the online offerings under our courses tab on the website.

LICENSE EXAM PREPARATION

Recently, we have had an influx of mariners looking to upgrade their licenses. CMTI has always offered license preparation assistance but our focus has shifted to include a program that offers mariners what they need for each level of preparation. Many students weren't really sure where to start or how to tackle the process. We took the guesswork out of it for you and designed (4) levels of license preparation.

CMTI offers USCG Deck License Exam Preparation for mariners at various levels of their careers. Select from our Test Prep options. See our [License Exam Preparations](#) page for more information.

Unit 1
License Prep

Unit 2
License Prep

Unit 3
License Prep

Unit 4
License Prep

- **License Prep Unit 1:** The focus of this 5-day license preparation will include an in-depth review of material required in each testing module that will cover the following topics: Rules of the Road, Navigation Problems: Chart Plot, and Navigation General.
- **License Prep Unit 2:** The focus of this 5-day license preparation, will be geared towards the information required on the Navigation Problems for Near Coastal / Oceans examinations.
- **License Prep Unit 3:** The focus of this 5-day license preparation, will be geared towards the information required on the Deck General / Safety / Environmental Protection / Stability modules.
- **Exam Preparation Unit 4:** Our 3-day program is for mariners who are preparing to test and want to ensure they have the knowledge level necessary to successfully pass all examinations. During the 3 days, mariners will be tested on all topics required as shown on their approval to test letter. Once the mariner completes the practice examinations, considering time is available, our instructors will provide tutoring / guidance on topics that are necessary to review at home prior to testing.

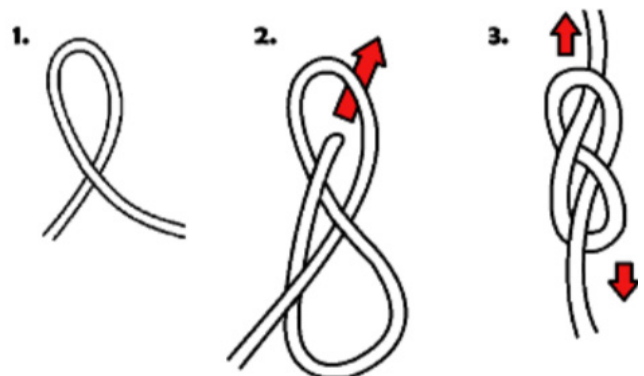

See our website for specific exam modules and more details at www.chesapeakemarineinst.com or contact our office at 800-642-2684.

KNOT Your Average Day At The Office.

Figure 8

The figure-eight knot is a type of stopper knot. It is very important in sailing as a method of stopping lines from running out of retaining devices. Like the overhand knot, which will jam under strain, often requiring the rope to be cut, the figure-eight will also jam, but is usually more easily undone than the overhand knot.

BRINGING PROFESSIONAL MARINER TRAINING TO YOU!

On May 22nd and August 8, 2018 Moran of Savannah and Lake Charles respectively, hosted a Person In Charge (PIC) training course. Chesapeake Marine Training Institute Instructor Captain Ken Kempton led both of the one-day classes. This training is one component of the requirements of 33 CFR 155.715 for a Letter of Instruction which designates that an individual can perform the duties of a PIC. Additional tug specific training will take place under the guidance of Port Engineers and OUM's. Moran consistently provides training and career development opportunities for employees and we welcome the relationship we have with this outstanding company.

Contact our Administration Office to setup your next specialized company training!

Moran of Savannah-

Attending (left to right) were, Chad Lee, Kurt Hellmann, Brett Hannon, Vincent Hartley, Brian Jenkins, Greg Anderson, Trenton Underwood, Chris Russom and Shane Leland, (front) Captain Kempton, OUM Cook.

Moran of Lake Charles-

Attending (left to right) were, Mike Parker, Geoffrey Denesse, Jason Jones, Captain Kempton, Josh Knowlton, Dean Williams, Eric Inman, Jimmy Wriston.

SALTY SAM SAYS...

SAIL THE SEVEN SEAS

But where are the seven seas? Or are they actually oceans? The list of the seven seas is believed by many to be the original seven seas as defined by the sailors of ancient and Medieval Europe. Many believe that "the seven seas" is simply an idiom that refers to sailing many or all

of the oceans of the world. Either way, the number seven is a very significant number in our history so we will leave it open to interpretation.

"THE GOAL OF EDUCATION IS UNDERSTANDING; THE GOAL OF TRAINING IS PERFORMANCE" -FRANK BELL
